PROJECTS

1. Simple Portfolio

- A statically-generated Next.js site
- Fast, SEO-friendly, deployable to Netlify with zero server config
- Includes a working blog you can publish to from a browser-based admin panel
- **GitHub:** [github.com/dariushishere-code/simpleportfolio]

2. Services UI

- A pixel-close recreation of a light-themed salon / barbershop
- Services + Order interface using only HTML and CSS
- No JavaScript frameworks, no UI libraries — just semantic markup, CSS Grid, and Flexbox
- **GitHub:** [github.com/dariushishere-code/services-ui]

3. Maximalism Portfolio Design

- Maximalism / Dopamine redesign of a bilingual (EN · FA) frontend portfolio
- A dark, high-energy personal site for a frontend developer & photographer
- Philosophy / More is more. Empty space is treated as wasted opportunity
- **Tech:** HTML, CSS, JavaScript | **Live:** [alirezaebrahimi.tech] | **GitHub:** [github.com/dariushishere-code/Blog]

4. Aureum — Gold Marketplace, (AI Involved)

- A Next.js + Tailwind CSS storefront concept for a gold marketplace
- bars, coins, jewelry, antique pieces, in a black / gold / ivory theme
- **Tech:** Next.js, Tailwind CSS | **GitHub:** [github.com/dariushishere-code/Goldmarketplace]
